The purpose of this memorandum is to approve the BJC USQ procedure provided in Reference 1.

The USQ procedure, Revision 7, the SER, and this approval memorandum are immediately part of the safety bases for EM hazard category 2 and 3 nuclear facilities operated by BJC. I expect that the implementation of this BJC USQ procedure will be accomplished within 60 days from its approval, as mentioned in Reference 2. When effective, this procedure will replace the current BJC USQ procedure.
